ABOUT

Fe 500 / 500D / 550D · IS 1786

TMT reinforcement bars from 8 to 32 mm in Fe 500, Fe 500D and Fe 550D from SAIL, Jindal and Raipur ISI mills, in full-length bars and bundles.

DESCRIPTION

TMT (thermo-mechanically treated) bars are the standard reinforcement for RCC. We stock the full size range from 8 to 32 mm in 12 m lengths, from primary mills such as SAIL and from ISI-marked Raipur mills, so you can match brand and budget.
