Torkari Straight Cut

Torkari straightened and cut to length in Bhilai by M2C Business. 5 and 5.2 mm, any length, ready to bend into stirrups and rings.

No site wastage
Bars arrive at the length you need, nothing left over from coil ends.

Faster bending
Straight, cut bars go straight to the bending bench.

Tagged bundles
Every bundle carries size and length.

ABOUT

Straightened & cut to length

Torkari 5–5.2 mm decoiled, straightened and cut to the length you need on our in-house line, so stirrups and rings can be bent straight away without site wastage.

DESCRIPTION

Coiled Torkari has to be straightened and cut before it can be bent into rings. We do that on our straightening-and-cutting line, delivering bundles of straight bars at the exact length your bar-bending schedule calls for.

Sizes	5 mm and 5.2 mm Torkari
Cut length	As per your requirement, from short ring lengths to full bars
Tolerance	Cut length checked per bundle
Packing	Bundled and tagged by size and length
Lead time	Typically 24–48 hours subject to quantity

How to order

Send the bar size, the cut length (or the ring dimensions and we will work out the cut length) and the quantity in kg or pieces. We quote the material and cutting together.
